The Next HOPE

How Are We Watched?

- DNA Tracking
- Public Building Security Cameras
- Private Building Security Cameras
- Public Street Safety Cameras
- Traffic Cameras
- Congestion Metering Cameras
- Red Light / Speed Cameras
- Aerial Surveillance
- Helicopter-mounted FLIR
- Media Consumption Tracking
- Voter Registration Tracking
- Library Book Checkout Tracking
- Professional License Registration
- Wave and Current Buoys
- CO2 Emission Tracking

How Are We Watched?

- Functional MRI

Structures Around Surveillance

- **Secondary uses**
- **Buying and sharing data**
- **Sunk cost**
- **Opportunity leads to abuse**
- **Equality versus aggregation**

Surveillance Can Be Good and Bad

- **Saved by surveillance**
- **Marketed to**
- **Data protection for the rich and famous**
- **Fraud detection**
- **Surveillance in the common good**
- **Personal protection**
- **Surveillance as crime stopper**
- **A consistent pattern**

Fixes

- **Documenting the problem**
- **Raising awareness**
- **Working directly with existing projects**
- **Subverting the system**

The Deployable Camera Competition

The Next HOPE: Buying Privacy in Digitized Cities

The Deployable Camera Competition

Functionality:

- **Deployability**
- **Operating life (ruggedness & battery life)**
- **Video quality**
- **Network integrity**
- **Privacy preservation & verifiability**

Utility:

- **Ease of use (end unit)**
- **Integration (software)**
- **Cost**
- **Constructability**
- **Documentation quality**

Bonus Points:

- **Real-world involvement**
- **Production chain**

The Deployable Camera Competition
